Instructions To Program Participants

Session Time Allocations: Each presenter will have total of 30 minutes and they should take no more than 20 minutes for presentation. Each Discussant should take no more than 5 minutes. The remaining time should be devoted to open discussion.

Session Chairs: Assume overall responsibility for your session. Make an effort to contact the session participants before the meeting. Inform them that each presentation room will be equipped with an overhead projector and flipchart. Ask them if they have any special needs relating to their presentation and/or discussion and, in collaboration with the registration desk, try to satisfy those needs. Arrive at the session room 10 minutes in advance and make sure that it is properly equipped. Welcome and introduce the participants. Start the session on time and adhere to the time schedule. Discussants should follow presenters. Moderate the open discussion to the best of your ability.

Presenters: Stay within the allotted time even though it may not be enough! Be well prepared. Please do not just read your paper. Your presentation of main points, methods, and conclusions should lead to a fruitful discussion during and after the session. Bring with you and make available several copies of your manuscript. All rooms will have LCD projectors.

Discussants: Be prepared to offer your “positive” remarks first. Then offer any “negative” remarks in a constructive way. Stay within the allotted time. If you cannot meet your commitment, please make an effort to find a substitute discussant, and contact the registration desk as well as the session chair immediately. Please contribute as much as you can to the discussion of all papers. If the session’s chair is absent, the last discussant listed should take on the role of the chair.
